Office Action Summary	Application No. 10/584,477	Applicant(s) HILLE ET AL.	
	Examiner BETHANY BARHAM	Art Unit 1615	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 24 February 2009.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Summary

This Application has been transferred from Examiner Hawthorne to Examiner Barham. It is noted that the Applicant's traversed the previous restriction by the previous Examiner in their response on 2/24/09 since no prior art was submitted to break unity, as such the previous restriction has been withdrawn and a new restriction is now required.

New Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-8 and 25-31, drawn to a wound dressing.

Group II, claim(s) 9-15, drawn to an adhesive wound dressing.

Group III, claim(s) 16-17, 33-34, 36-37 and 42-43, drawn to a process for producing a wound dressing.

Group IV, claim(s) 18, 44, and 46, drawn to a process for producing an adhesive wound dressing.

Group V, claim(s) 19-22, 32, 35, 45 and 47, drawn to a different process for producing an adhesive wound dressing.

Group VI, claim(s) 23, drawn to use of a wound dressing.

Group VII, claim(s) 38-39, drawn to a different wound dressing.

Group VIII, claim(s) 40-41, drawn to another adhesive wound dressing.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: the special technical feature is a "wound dressing for treating bleeding wounds" comprising "adrenaline", which is taught in the prior art GB 1161528 teaching a treatment of wounds with a dressing comprising a swab soaked in a solution containing adrenaline (pg. 1, col. 1; claims 1 and 5). As such there is no special technical feature that makes a contribution over the prior art and unity is lacking.

The examiner has required restriction between product and process claims.

Where applicant elects claims directed to the product, and the product claims are subsequently found allowable, withdrawn process claims that depend from or otherwise require all the limitations of the allowable product claim will be considered for rejoinder. All claims directed to a nonelected process invention must require all the limitations of an allowable product claim for that process invention to be rejoined.

In the event of rejoinder, the requirement for restriction between the product claims and the rejoined process claims will be withdrawn, and the rejoined process claims will be fully examined for patentability in accordance with 37 CFR 1.104. Thus, to be allowable, the rejoined claims must meet all criteria for patentability including the requirements of 35 U.S.C. 101, 102, 103 and 112. Until all claims to the elected product are found allowable, an otherwise proper restriction requirement between product

Art Unit: 1615

claims and process claims may be maintained. Withdrawn process claims that are not commensurate in scope with an allowable product claim will not be rejoined. See MPEP § 821.04(b). Additionally, in order to retain the right to rejoinder in accordance with the above policy, applicant is advised that the process claims should be amended during prosecution to require the limitations of the product claims. **Failure to do so may result in a loss of the right to rejoinder.** Further, note that the prohibition against double patenting rejections of 35 U.S.C. 121 does not apply where the restriction requirement is withdrawn by the examiner before the patent issues. See MPEP § 804.01.
